## WET-N-DRY INDUSTRIAL VACUUM CLEANER (DUAL MOTOR)

Santoni, since 1983, has been a pioneer in the industrial air pollution control and cleaning technology and has given several firsts to the country.

SANTONI WETPIK-2000B is a double motor version of SANTONI WETPIK-1000B. It is a trolley mounted wet and dry pick-up vacuum cleaner suitable for applications requiring higher airflow. It is fitted with two vacuum motors which are of the same quality as in case of WETPIK-1000B, so you can expect the highest possible performance and long life for which Santoni's machines are known.

The standard container is roto-molded in 45 Litre capacity. However, larger tanks in painted mild steel or stainless steel are available optionally.
